ALOE CARE HEALTH

The World's Most Advanced Medical Alert System

The Sleep Mat

- **Seamless Integration:** Sleep data from the Sleep Mat syncs directly with Aloe Care Health, providing caregivers a full picture of loved ones' health.
- **Real-Time Alerts:** Caregivers receive notifications through Aloe Care's app for irregular sleep patterns or health concerns like apnea or abnormal heart rate.
- **Non-Intrusive Monitoring:** Comfortable, under-mattress design means no wearables—effortless sleep tracking without disrupting routines.
- **Remote Access:** Sleep data is easily accessible from anywhere, empowering remote caregivers to stay informed and proactive.
- **Enhanced Senior Care:** Ideal for older adults, it supports safer, independent living with deeper sleep insights for better overall health management.

Sleep Definitions

The Sleep Score is a very simple and intuitive way to understand how well you slept. Sleep measures every night's sleep and provides a score out of 100 points based on 6 key inputs:

- Duration (total time spent sleeping)
- Depth (part of night spent in restorative phases, deep sleep and REM sleep)
- Regularity (consistency between your bed- and rise-times)
- Interruptions (time spent awake)
- Time to sleep (time it took to fall asleep)
- Time to get up (time it took to get out of bed)

Scoring

Good: 75+

Fair: 50-75

Poor: 49 or below

OK
